

POCKETSMART AI COMPREHENSIVE PROJECT DOCUMENTATION

Team ID: SWTID-2026-3238 | Project Name: PocketSmart AI | Track: AI-ML & Generative AI

1. Project Overview & Features

PocketSmart AI is an end-to-end intelligent budgeting assistant built upon FastAPI, Jinja2, SQLite, and Google Gemini 2.5 Flash. It provides three primary planning verticals: Home Interior Planner, Party & Event Planner, and Jewelry/Outfit Stylist with multimodal image recognition.

- **Official Project Repository:** <https://github.com/Not-Siddharth19/PocketSmart-AI>

2. API Endpoint Reference
